Oral Gallery: Addressing All Aspects of Oral Health with Expertise

Incorporates various resources.
Combines images, videos, and animations effectively.
Helps to provide oral health knowledge to patients.
Enhance communication between doctors and patients.
Empowering dentists to enhance efficiency and elevate
treatment outcomes for their patients.

Elevate patient care with comprehensive
information management.
Experience meticulous and
diverse record-keeping at its
finest Every patient deserves
the royal treatment – and
we make it happen!

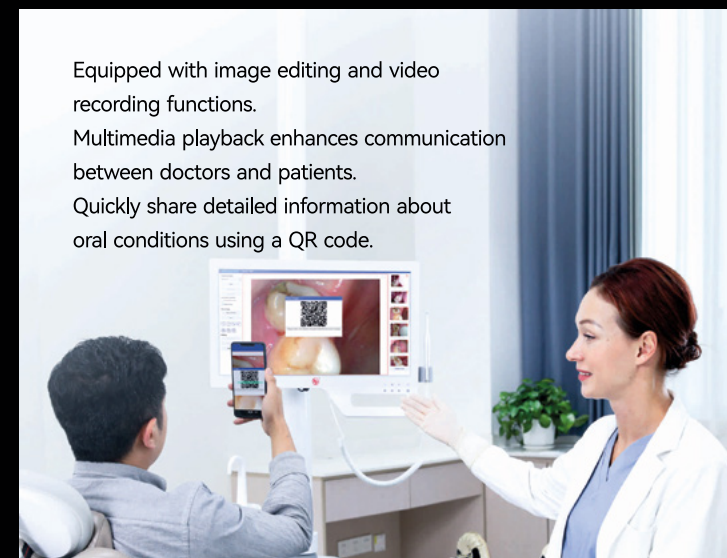

Compatible with major dental management software.
Ensure dentists experience true peace of mind.

Single screen, dual screen, quad screen.
Three image presentation modes for
easy comparison.
Involve your patients at every step of
the treatment decision process, fostering
deeper trust and collaboration in their care.

Equipped with image editing and video
recording functions.
Multimedia playback enhances communication
between doctors and patients.
Quickly share detailed information about
oral conditions using a QR code.

Large color touchscreen

21.5-inch 1080P touchscreen
Widescreen, true-to-life colors, bringing a more vivid and sharp display
Real-time image transmission for precise intraoral details

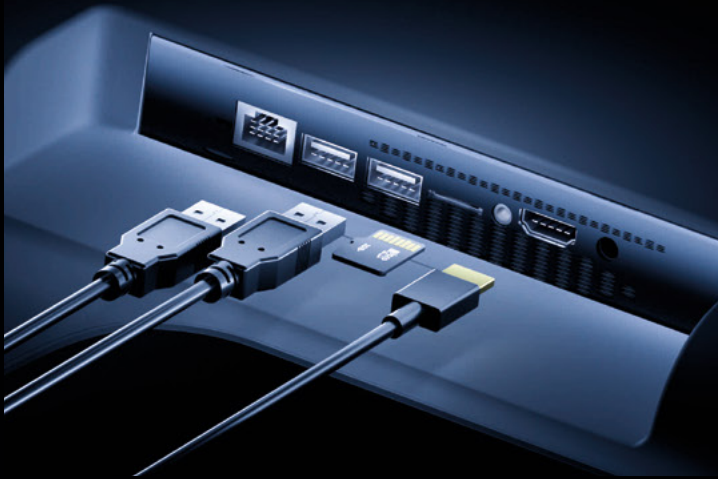

Exclusive embedded system

Tailored embedded system that combines simplicity with a wealth of features.
Designed to be user-friendly, making it a perfect fit for beginners eager to dive in.
Experience the ease of innovation at your fingertips.

Unfailingly dependable hardware.

Storage: 4GB RAM + 8GB SSD.
Support mainstream connections such as TF card, HDMI, USB 3.0, etc.
Achieve a balance of professionalism and cost-effectiveness.

User-friendly smart interactive system

Embrace the 'simplify complexity' design philosophy.
Custom-built interactive system on Windows 10.
Easy operation combined with enhanced communication between doctors and patients.

Exceptionally advanced hardware

Storage: 4GB RAM + 128GB SSD.
Elevated quality by a formidable system kernel.
Safeguard system stability and reliability.

Large color touchscreen

21.5-inch 1080P ultra-clear touchscreen
Reproduce true-to-life details with precision
Sensitive touchscreen for easy control

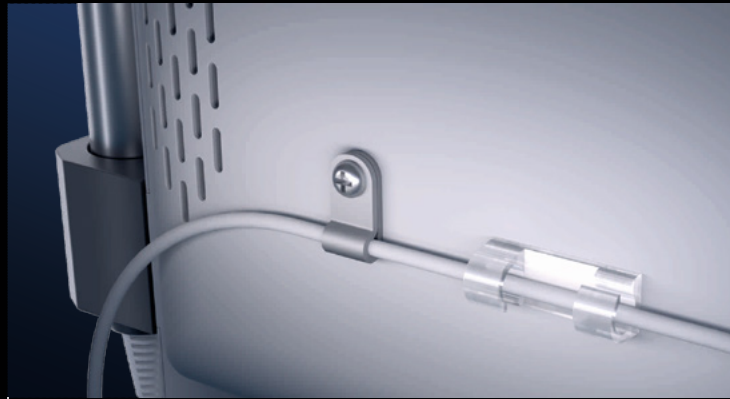

12mm x 5.5mm ultra-thin glass-sealed lens

Enhanced depth of field with autofocus for crystal-clear images.
A fully covered lens design effectively resists contamination.
Easy to clean, ensuring a consistently clear view.

Intelligent Sleep Mode with Accurate Sensing

Utilizes dual hall sensors.
Automatically enters sleep mode when placed down.
360° all-around sensing effectively extends the device lifespan.

Sleek Design, Practical Aesthetics

Metal handle with soft-touch buttons enhances user comfort.
The dual-fixed handle cord design prevents loosening and ensures a stable connection during prolonged use.

Lightweight and user-friendly

100g featherlight handpiece.
Two image capture buttons.
One-click image capture with ease!
(Note: KP Cam-M handpiece fits different HD integrated units, and the buttons on the handpiece function differently.)

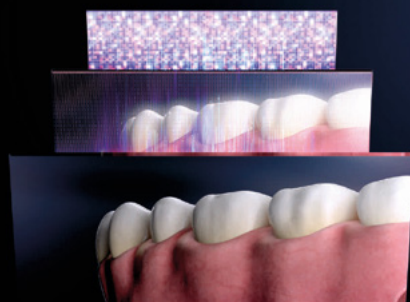

KP Cam-M Handpiece

KP Cam-P Handpiece

Ultra-clear screen

1920*1080 high resolution.
16:9 golden ratio.
Present crystal-clear details and true-to-life color.

Wide-angle lens

80-degree wide field of view.
Deep depth of field coupled with autofocus feature.
Provide accurate and realistic images.

10-LED illumination system

10 LEDs with a cold light source.
10 levels of brightness adjustable.
Consistent and optimal for taking images, even in challenging conditions.

Lightweight and comfortable

A smooth, rounded handpiece head design ensures effortless operation.
Enhanced comfort for patients during procedures.
The 106g sleek, white design is ergonomically crafted for easy control.

Find your perfect match among KP Cam series

KP Cam-one
(PC Touchscreen Model)
